January 2019

**RE Enevo Uk Ltd**

In August 2018, I took a decision to partner with Enevo Uk Ltd for our refuse collection. The company offered cost effective re-cycling solutions for many aspects of the hotel's waste and quite flexible contractual terms, unlike many other operators in their field.

After nearly 6 months trading, I am pleased to report a successful partnership. Our old front-loading bins for general waste and recycling have been replaced by 1100lit wheelie bins. These are easy to move and keep clean and can be stored away from customer's sight. The reduced capacity is courtesy of the installation of a baler which compacts recyclable waste. In terms of cardboard, which accounts for a large part of the hotel's refuse, the baler compacts and bales in 20-40kg piles. This is collected separately every week and a rebate is paid against the general collection, thus reducing our monthly collection costs. There is also a rebate arrangement on our glass skip. The collections are arranged through the local authority, twice weekly, and capacity can be adjusted during peak trading or holiday periods. We also take 240lit wheelie bins for separate food waste. Setting up the account was straight forward, the transfer over was seamless and they even provided our staff with training on the baler. The team at their office is always prompt and responsive to all questions and queries.

Overall, I am very satisfied with the service and have full confidence in the company's commitment to effective recycling. I would have no hesitation in recommending Enevo UK Ltd to other businesses for the refuse collection.

Should you need any further information please do not hesitate to contact me.

Yours faithfully
